Post Fritskar-Land. Ber. Hassel.

Kenneth Madson, son of Mr and Mrs. Walter Madson is living for the present at Elben, Germany, in a house built like a castle, formerly the mansion of Baron Von Buttlar. Some of his letters were written on the personal stationary of the Baron's wife. The country there is beautiful and every inch is being farmed. The people dress much as we do but you can tell the Nazis as they are always dressed better than the rest. Kenneth was one of a squad of 12 picked to drive several hundred miles to Epen, Belgium, to lay a wreath in the U. S. Cemetery where 17,000 of our American boys are buried.
